REV: A | 01-10-2019 | II-6920

**READ INSTRUCTIONS IN FULL BEFORE INSTALLATION.
QUESTIONS? CALL 916-631-8071 M-F 7:00 AM – 5:00 PM PST**

The MetalCloak experience includes the ease of installation of our products. We design for most contingencies, but installation may be different based on different Jeep condition, configuration and/or year.

We are continually trying to improve our products and instructions – please help us by providing feedback and pictures if you find any part of the instructions that do not match your particular Jeep or are not easily understandable.

If you have any difficulties at all, please give us a call. Thank you and enjoy your MetalCloak Products!

IMPORTANT NOTE: We use Stainless Steel Hardware where possible. Therefore, a tube of Silver Anti-seize is provided and should be used on all bolts—only a small amount is needed.

WARRANTY INFORMATION: This article is sold without warranty expressed or implied. No warranty or representation is made as to this products ability to protect the user from injury or death. The user assumes that risk. The effectiveness, warranty and longevity of this equipment are directly related to the manner in which it is INSTALLED, USED and/or MAINTAINED. THE USER ASSUMES ALL RISK. By purchasing this product and opening the packaging, purchasers expressly acknowledge, understand and agree that they take, select and purchase these MetalCloak products from Armored Works, LLC, its affiliates and distributors and agents as is and with all faults. The entire risk as to the quality and performance of these MetalCloak products is with the purchaser. Working on your vehicle can be a dangerous activity. If you are unsure of what you are doing, please leave mechanical or safety critical work to a skilled mechanic. We take no responsibility for the incorrect use and/or installation of MetalCloak products.

Section 1: Tools & Notes on Installation

Tools Required: This list is the recommended tools for ease of installation. Other versions of the same tool can be used. For example, Allen Wrenches instead of Allen Drive Sockets.

Socket & Ratchet Wrench

T45 Bit

1/2" Wrench

13mm Socket
1/2" Socket

HOW TO USE THIS GUIDE: The installation guide contains ALL steps for installation. Please read and follow the instructions in order of each page from top to bottom, and left to right.

Jeep Model: Instructions may apply to multiple Jeep models, but are labeled separately where appropriate (i.e. TJ vs. LJ).

Options: Because of the number of component options we offer, these instructions may contain steps that will not match your particular configuration. You can skip these steps.

Images: Pictures are provided and parts are labeled throughout the instructions. Each text box contains guidance based on the pictures next to it. The text will refer to alphabetical labels (A, B, etc.) found in the images.

Installation Notes: Terms may be used in the body of the instructions that you may not be familiar with, if you have any questions feel free to contact us at the number below, or email techhelp@metalcloak.com

QUESTIONS: Any questions or comments about the instructions? Call us at 916-631-8071 M-F 7:00 AM – 5:00 PM PST.

PART NUMBER/DESCRIPTION
 6920 SPARE TIRE LIFT BRACKET, JL

Section 3: Installation Instructions

Step 1: Install Spare Tire Carrier Mount

- A. Remove the spare tire from the stock tire carrier
- B. Using a 13mm socket remove the stock bolts. **SAVE ALL HARDWARE.**
- C. Align the lift bracket to the stock location and using a 13mm socket install the stock bolts.
- D. Remove the wiring from the notch on the stock tire carrier.

Section 3: Installation Instructions

Step 2: Install Spare Tire Carrier

Important Note: Make sure to rest the third brake light wiring on the lift mount cutout before tightening the hardware.

NOTE

- E. Install the tire carrier using the provided hardware.
- F. Using a 1/2" socket and wrench tighten all the provided hardware.
- G. Using a T45 bit remove the hardware attaching the third break light mount. **SAVE ALL HARDWARE.**

Section 3: Installation Instructions

Step 2: Install Spare Tire Carrier

- H. Slide the third brake light bracket up so that the lower mounting holes align with the top bolt holes.
- I. Using the upper bolt holes reinstall the brake light to the spare tire carrier
- J. Install the spare tire.
